

Contents of issue 4 vol. LIII

- 347 Z. KOTULSKI, W. SZCZEPIŃSKI, *On a model for prediction of the movements of a crowd in narrow exits*
- 363 B. GAMBIN, A. GAŁKA, J.J. TELEGA, S. TOKARZEWSKI, *Influence of anisotropy induced by microcracks on effective elastic properties*
- 375 J. M. FRAGOMENI, R. WHEELER, K. V. JATA, *The effect of aging on the microstructure, precipitation response, and fatigue behavior in an Al-Li-Cu Alloy*
- 397 W. BODASZEWSKI, *Analyses of plane stress discontinuity lines systems in Oyane porous media*
- 415 I. ECSI, *Bounds for the effective shear modulus*

FROM THE EDITORIAL BOARD

The Editorial Committee wishes to express many thanks and appreciation to all the referees, listed below, for their valuable opinions concerning papers submitted to the Engineering Transactions in 2005.
